

Accelerated Energy Solutions, Inc.
In Alliance with

Commercial Sub Metering Solutions...

...Fairly allocate cost and consumption by tenant with certified metering.

- Respond to specific tenant needs: additional capacity, peak usage alarms, etc
- Separate the use and cost for each tenant
- Prove energy costs for tenants with detailed customized reports
- Meter all common area equipment: Main Chiller Plant, fans, pumps, etc
- System alerts for advance failure notification or maintenance needs
- Break out energy cost based on tenant's direct usage plus common area proportion
- Functionality for Demand Response capability
- Accurate baseline and progress when tracking system efficiency improvements
- Certifiable benchmarking and performance verifications for Energy Star and LEED

Data Center Solutions...

...Downtime is unacceptable. Give your facilities personnel, instant access to critical data.

- Prevent common trips or overloads from taking down your system with our instant alarms
- Generators and UPS go into alarm
- Determine battery condition during an outage
- Branch Circuit Monitoring with notification on excessive loading
- Reliability Risk Assessment
- Integrate monitoring for all equipment:
 - ▶ BCM
 - ▶ Battery
 - ▶ Substations
 - ▶ PDU
 - ▶ Switchgear Equipment
 - ▶ UPS
 - ▶ Generators

General Products & Solutions...

- **Sustainability Integration Program**
- **Web Dashboards**
- **Incident Reports**
- **On Demand and Automatic Reports**
- **Remote Notifications**
- **Expert Services – Local: Silicon Valley Based**
- **www.appt4power.com**

Thank you for your time & interest; our services will support your costs return many times over...
